- Remote Control: Simple, convenient adjustments.
- Custom Ambience: Fully personalized mood settings.
- Patented Design: Built for durability and performance.
- 1-Year Warranty: Reliable coverage.
- TV-Safe: Safe for installs under a TV.
- Variable Heat + Thermostat: Adjustable, programmable comfort.
- Variable Flame Controls: Choose flame speed and intensity.
- 120V Plug: Easy plug-and-play setup.

TWO-SIDED

The "Cornered" option allows for only one side to be covered and installed in a corner section of a room, making it an ideal choice for spaces where this style fits best. This can be achieved by covering either the left or right side of the fire, resulting in a more striking and dramatic room composition.

Remote Control & Media Included – Comes with a remote and a size-specific split log set.

Mirrored Back Glass Design

- Creates an illusion of depth, making the flames appear to rise seamlessly between the logs.
- Enhances the visual appeal, adding a mesmerizing, lifelike quality to the fireplace.
